(54) Titre : MEUBLE DE REMPLACEMENT ET PROCEDES APPLICABLES A UN APPAREIL DISTRIBUTEUR  
 (54) Title: REPLACEMENT LINER AND METHODS FOR A DISPENSING DEVICE

(57) Abrégé/Abstract:

A method for stocking items into drawers of a dispensing unit. The method comprises providing a liner and a plurality of adjustable dividers. The dividers are arranged within the liner to form a preselected arrangement of bins. Different types of items are placed

(57) **Abrégé(suite)/Abstract(continued):**

into the bins and an identification device is attached to the liner which includes information identifying the arrangement of the dividers and the types of items held in the bins. The liner is placed into the drawer, wherein the dispensing unit includes a reader which reads the information from the identification device.
