(54) Title of the Invention: **Flood defence barrier system**
Abstract Title: **Flood defence barrier system**

(57) A flood defence barrier system kit-of-parts comprising: (a) a plurality of flood defence panels, (b) a plurality of supporting posts adapted at least partly to receive and support at least one flood defence panel, (c) ground-anchorable flood defence panel-receiving means, capable of at least partly receiving and supporting said flood defence panels, (d) ground-anchorable supporting post-receiving means, capable of at least partly receiving and supporting said supporting posts, and (e) flood defence panel-connecting means adapted to engage and connect together two or more said flood defence panels and optionally (f) a plurality of reinforcing supports adapted to engage a support post, or a flood defence panel, or said flood defence panel connecting means and adapted to be at least partially ground-seated.
