(54) Title of the Invention: **Wheeled military land vehicles assembly/disassembly PLC system**
Abstract Title: **Wheeled military land vehicles assembly/disassembly PLC system**

(57) The invention relates to the PLC system (400) providing automatic assembly/disassembly of the vehicle subsystems such as wheel, suspension, axle complex, power transfer etc. of the military land vehicles. In particular, the invention relates to the PLC system (400) having its own database that controls all moving elements and safety systems within the automation system and having a programmable structure.
