(54) Title: BIOMARKER PAIRS AND TRIPLETS FOR PREDICTING PRETERM BIRTH

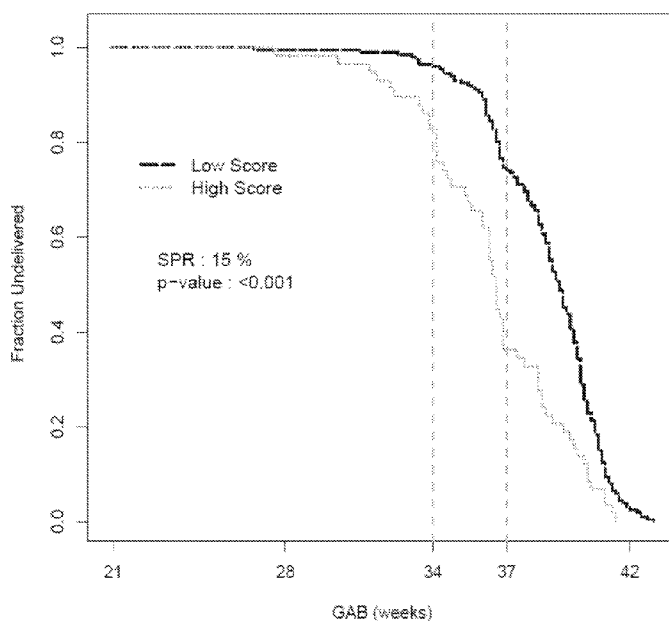

FIG. 1

(57) Abstract: The disclosure provides a reversal group of biomarkers comprising a reversal pair and a reversal triplet, wherein the reversal pair and reversal triplet exhibit a change in reversal value between pregnant females at risk for pre-term birth and term controls. Also provided is a method of determining probability for preterm birth in a pregnant female, the method comprising measuring in a biological sample obtained from the pregnant female, a reversal value for a reversal pair and a reversal triplet to determining the probability of preterm birth in the pregnant female.
