(54) Title of the Invention: **A breathing wall apparatus for enabling natural ventilation**
Abstract Title: **A BREATHING WALL APPARATUS FOR ENABLING NATURAL VENTILATION**

(57) The present invention relates to a breathing wall apparatus (1) for performing passive ventilation by enabling to take the outside air in by means of a filling material that allows partial air passage in an apparatus and/or a currently existing porous structure in a wall consisting of straw bale, upon being applied to at least one surface of a wall consisting mostly of straw bales (S).
