Fig. 5

Fig. 6

Fig. 7

FIG. 1 is a side view in elevation of an excavating machine embodying the invention,

FIG. 2 is a front view in elevation of the excavating machine shown in FIG. 1,

FIG. 3 is a plan view of the excavating machine shown in FIG. 1,

FIG. 4 is a rear view in elevation of the excavating machine shown in FIG. 1,

FIG. 5 is a side view in elevation of the excavating machine which is similar to FIG. 1, but with the parts shown in broken lines removed,

FIG. 6 is a plan view of the excavating machine similar to FIG. 3 but with the parts shown in broken lines removed, and

FIG. 7 is a front view in elevation of the excavating machine similar to FIG. 1, but with the parts shown in broken lines removed.

The dominant features of the design reside in the portions shown in full lines.

We claim:

The ornamental design for an excavating machine, as shown and described.
